

First in South East Asia to provide end-to-end
Air Quality services.

Asia Pacific Air Quality (APAQ) Group is a company **founded in Singapore**. Together with its representative office in Indonesia - APAQ Group handles clients all over Asia. We offer state of the science solutions integrating internationally certified products from the region and from the **US and Europe**.

APAQ Group are the first in **South East Asia** to undertake end-to-end services within Air Quality. Including planning and consultancy, modeling and impact assessment, monitoring systems, and training. Our **Air Quality Academy[®]** trains air quality professionals in Singapore and throughout Asia.

A diverse, passionate and highly skilled team is our hallmark. **Air Quality Matters** and together we can work on improving it.

AREAS OF EXPERTISE

Our expertise spans the entire spectrum of air quality monitoring instrumentation: within gaseous pollutants, particulates, odor, Volatile Organic Compounds (VOC) as well as meteorology and climate.

We combine our **regional expertise** and know-how with the most advanced systems and products from around the world. Therefore, we provide:

- Air Quality planning and consultancy services
- Air Quality Monitoring Systems
- Air Dispersion Model software and training
- Continuous Emission Monitoring Systems (CEMS)
- Calibration of equipment and its maintenance
- Meteorological systems and weather stations
- Turn-key solutions and system integration
- Meteorological model and data for air quality

OUR CLIENTS

We are trusted advisors to our clients and partners, bringing together **US-EPA certified instruments**, regional capabilities and knowledge of atmospheric sciences.

The clients we work with range from decision makers to health and safety professionals, within:

- Environmental agencies and regulators
- Petrochemical and power plants
- Light industries such as manufacturing facilities, F&B plants
- Consultancies, engineering and construction companies
- Researchers and universities
